LinkedIn: linkedin.com/in/olayiwola-uthman X: x.com/layicode

SUMMARY

Software developer building clean, functional software from Java backends to polished frontends. Passionate about full-stack development, REST APIs, and responsive web apps. Constantly learning, eager to contribute, and open to internships and entry-level roles.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Vite
Databases: SQL, PostgreSQL, Supabase
Mobile & Desktop: Java Swing, JavaFX
Tools: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Figma

Backend: Java, Spring Boot, Spring Security, REST API Design, Node.js, Swagger, JWT
Integrations: Paystack, Gemini AI
Cloud & DevOps: Vercel, Docker

PROJECTS

GoalForge • Live
A full-stack goal-tracking app with a React frontend and Spring Boot backend.
[React / Spring Boot](#)

Car Website • Live
Multi-page car dealership site with category and detail pages, galleries, and a contact form.
[HTML / CSS / JavaScript](#)

Ecommerce Backend
Spring Boot REST API with JWT auth, RBAC, stock-safe ordering, and Paystack webhooks.
[Java / Spring Boot / PostgreSQL](#)

UniSwap API
Peer-to-peer campus marketplace REST API secured with JWT authentication.
[Java / Spring Boot / MySQL](#)

Ecommerce Platform
Full-featured clothing store with listings, cart, and checkout flow.
[HTML / CSS / JavaScript](#)

Java Calculator
Desktop calculator with a clean Swing UI, keyboard input, and history.
[Java / Swing](#)

Real Estate Site • Live
Property listing website with search filters and responsive layout.
[HTML / CSS / JavaScript](#)

Portfolio Site
Earlier portfolio design exploring layout, typography, and animation with pure CSS.
[HTML / CSS](#)
